PROFILE

Motivated developer with a Computer Engineering degree and freelance experience building scalable web applications in PHP and Laravel. Developed and deployed RESTful APIs, MySQL/ PostgreSQL integrations via backend solutions utilizing queues and unit testing. As a Technical Content Creator on [YouTube](#), I simplify complex architectures and Laravel best practices for the community, demonstrating a deep commitment to SOLID principles and clean, maintainable code. I am eager to leverage this technical foundation to contribute effectively to high-impact, collaborative teams.
