PROFILE

Software Engineer with a Computer Engineering degree and hands-on experience building scalable web applications, backend systems, APIs, and AI-integrated solutions using multiple technologies including Python, PHP, and JavaScript.

Experienced in software architecture, database design, authentication systems, performance optimization, and AI-assisted development workflows. Skilled in leveraging AI models and coding tools to accelerate development, automate testing, improve code quality, and build intelligent software solutions.

Passionate about clean code, maintainable architectures, problem solving, and building production-ready systems following modern software engineering practices.

EDUCATION

Modern Academy For Engineering And Technology, *Bachelor in Computer Engineering* 2019 – 2024 | Cairo, Egypt
GPA: 3.41 (Ranked 4th in Cohort) Graduation Project: Grade A+

WORK EXPERIENCE

Freelancer, *Software Engineer* 02/2022 – Present

- Delivered 15+ software projects including web applications, APIs, dashboards, and AI models.
- Designed scalable backend architectures and database-driven systems.
- Built authentication systems, admin dashboards, and RESTful APIs.
- Used AI-assisted development tools to speed up implementation, debugging, and testing.
- Collaborated directly with clients to analyze requirements and deliver tailored solutions.

Teradeveloper, *Fullstack Web Developer* 11/2024 – 02/2025 | Alex, Egypt

- Developed scalable backend systems and APIs for production applications.
- Integrated backend services with Angular frontend applications.
- Improved system maintainability and optimized database operations.
- Collaborated on full software development lifecycle and deployment workflows.

Heda.firm, *Backend Web Developer* 09/2024 – 01/2025 | Cairo, Egypt

- Maintained and optimized existing web applications and backend systems.
- Improved performance by optimizing queries and application workflows.
- Implemented scalable backend solutions and resolved production issues.

SKILLS

- Programming Languages:** Python, PHP, JavaScript
- Software Engineering:** OOP, SOLID Principles, Design Patterns, MVC, RESTful APIs, Unit Testing
- Database and Optimization:** MySQL, PostgreSQL, MongoDB, SQLite
- Web Frameworks:** Laravel, NodeJs, Flask, Angular
- DevOps & Tools:** Docker Git/GitHub CI/CD Postman Linux VS Code AI Models
- AI & Automation:** AI Coding Tools, Prompt Engineering, AI Model Integration

PROJECTS

- Smart Dental AI**  03/2026
- AI-powered dental disease detection and classification system using deep learning and computer vision techniques for automated tooth image analysis. Built image preprocessing and prediction pipelines using YOLOv8, ResNet-50 and OpenCV with backend integration for real-time diagnostic workflows.
 - **Tech:** *Python, Node.js, OpenCV, ResNet-50, YOLOv8, Express.js, MongoDB, Jupyter*
- Multi-Vendor E-commerce**  09/2025
- Built a scalable multi-vendor e-commerce API with secure JWT and OAuth authentication using Laravel. Integrated Paymob payment gateway, OTP verification, caching strategies for performance optimization, and a role-based access control system for vendors and administrators.
 - **Tech:** *Laravel, REST API, MySQL, Passport, Swagger, Postman*
- Blood Diagnosis Platform**  12/2025
- AI-powered medical platform for blood test classification with role-based systems for patients, doctors, and administrators. Implemented automated diagnostic workflows, authentication systems, and interactive dashboards integrated with AI-based detection and classification tools.
 - **Tech:** *Python, Flask, PostgreSQL, OpenCV, HTML, CSS, JavaScript*
- Brain Tumor Detection**  08/2025
- Comprehensive web application for brain tumor detection and management, integrating a Laravel-based backend with a Python Flask AI service. Implemented medical image analysis using OpenCV, enabling automated tumor detection from imaging data. Built a full-stack system with patient workflow support and interactive UI.
 - **Tech:** *Laravel, Python, Flask, OpenCV, MySQL, JavaScript, Bootstrap, jQuery, HTML, CSS*
